2 Panel Insert Specifications

Graphic Notes:

Keep all pertinent information a minimum of 1/8 (.125) inch from all trim and pref lines.

We don't recommend using type smaller than 8 points when reversing out of a color field.

All art work should be a minimum of 300 dpi.

When sending a .psd or .ai file, please keep layers active.

Please include all fonts necessary for text and/or convert text to outlines.

PC based graphics only, Mac users must send Photoshop.eps files.

Paper stock is glossy on both sides.
